

WESTERN SYDNEY
UNIVERSITY

School of Business

Subject Outline

ECON3014 (Vietnam) International Finance
Vietnam Operation Trimester 3 2026

Western Sydney University acknowledges the peoples of the Darug, Dharawal, Eora and Wiradjuri nations. We also acknowledge that the teaching and learning currently delivered across our campuses is a continuance of the teaching and learning that has occurred on these lands for tens of thousands of years.

ECON3014 (Vietnam) International Finance Vietnam Operation Trimester 3 2026 Subject Outline

Subject Details

Subject Code:	ECON3014 (Vietnam)
Subject Name:	International Finance
Credit Points:	10
Subject Level:	3
Assumed Knowledge:	Not Applicable

Note: Students with any problems, concerns or doubts should discuss those with the Subject Coordinator as early as they can.

Subject Coordinator

Name: Dr Anil Mishra

Email: A.Mishra@westernsydney.edu.au

Consultation Arrangement:

Please liaise directly with the academic teaching this subject regarding appropriate consultation times. Dedicated consultation times are posted on Ultra, However, it is usually best to make contact with these staff via email.

Vietnam Convenor

Name: Dr BUI Hong Mai

Email: mai.buihong@westernsydney.edu.au

Student Advisor

Name: Student Advisor Team

Location: 196 Tran Quang Khai, Tan Dinh Ward, Ho Chi Minh City

Email: VietnamStudentHub@westernsydney.edu.au

Administrative Support

Name: Mr HUYNH Thong Dat
Email: dat.huynhthong@westernsydney.edu.au

1 About International Finance

1.1 An Introduction to this Subject

The study of international finance from the vantage point of a multinational enterprise provides students with a global insight into international trade for both manufactured and financial products. The subject recognises the increasing importance of global integration of money and capital markets - a trend that is creating expanded opportunities for both investors and organisations that need to raise capital. The recognition and management of risks associated with international operations are explored including cost of capital and financial structure, international financial markets crisis, international financial management, international monetary system, international diversification, foreign exchange risk management including the use of futures and options, foreign investment analysis, determination of exchange rates, balance of payments analysis, international debt crisis and country risk analysis.

1.2 What is Expected of You

Study Load

A student is expected to study an hour per credit point a week. For example a 10 credit point subject would require 10 hours of study per week. This time includes the time spent within classes during lectures, tutorials or practicals.

Note for Summer Terms: As Summer subjects deliver the same content and classes over a shorter period of time, the subjects are run in a more intensive mode. Regardless of the delivery mode, the study hours for each subject in Summer will be around 30 hours.

Attendance

It is recommended that students attend all scheduled classes in order to succeed in this subject. WSU Vietnam policy requires students to enter electronic fingerprint before entering the classes. Please let your lecturer and/or Vietnam Operation know if you are unable to attend any session.

Approach to Learning

The learning approach we stress in studying International Finance is to emphasise that current financial issues around the world require an understanding of many interrelated markets and will be better understood if we take an applied approach to practical problems and issues. These questions do not test rote learning, memorisation and other surface approaches. We want students to use the ideas and tools from the texts and lectures to provide insights into real problems and policy concerns. Hopefully, one consequence will be that students perceive international finance as not just an abstract and technical discipline but one that is vitally concerned with pressing policy issues. The overriding learning objectives are to foster analytical reasoning skills and critical thinking. These skills can be used to problem-solve using an underlying conceptual framework while being aware of some of the pitfalls of that framework. The development of written and oral communication skills is another desirable outcome.

Online Learning Requirements

Subject materials will be made available on the subject's Ultra (E-Learning) site (<https://vuws.westernsydney.edu.au/>). You are expected to consult Ultra at least twice a week, as all subject announcements will be made via Ultra. Teaching and learning materials will be regularly updated and posted online by the teaching team.

Special Requirements

Essential Equipment:

Not Applicable

Legislative Pre-Requisites:

Not Applicable

1.3 Changes to Subject as a Result of Past Student Feedback

The University values student feedback in order to improve the quality of its educational programs. The feedback provided helps us improve teaching methods and subjects of study. The survey subjects results inform subject content and design, Subject Outlines, teaching methods, assessment processes and teaching materials.

You are welcome to provide feedback that is related to the teaching of this subject. At the end of the semester you will be given the opportunity to complete a Student Feedback on Subject questionnaire to assess the subject. If requested by your subject coordinator, you may also have the opportunity to complete a Student Feedback on Teaching (SFT) questionnaire to provide feedback for individual teaching staff.

2 Learning and Teaching Activities

Teaching Weeks	Topic	Preparation	Assessment Due
Week 1 31-08-2026	Multinational Financial Management: Opportunities and challenges. The International monetary system. Chapter 1: Problems: 1, 2, 10, 13 and 14. Chapter 2: Problems: 2, 11-13	Tutorial allocations in Week 1. All students must attend to have their Presentation topics assigned.	
Week 2 07-09-2026	Balance of payments. Chapter 3: Problems: 1-4, 10-14 and 25.	Presentations: Chapter 1: Problems: 1, 2, 10, 13 and 14. Chapter 2: Problems: 2, 11-13.	- Presentation in tutorial
Week 3 14-09-2026	The foreign exchange market Chapter 5: Problems: 2,4,7,8 and 14-16.	Presentations: Chapter 3: Problems: 1-4, 10-14 and 25.	- Presentation in tutorial
Week 4 21-09-2026	International parity conditions. Chapter 6: Problems: 1, 2, 3, 4, 21 and 23.	Presentations: Chapter 5: Problems: 2, 4, 7, 8 and 14-16.	- Presentation in tutorial
Week 5 28-09-2026	Foreign currency derivatives Chapter 7: Problems: 1,2,3,4 and 9	Presentations: Chapter 6 Problems: 1,2,3,4,21 and 23	- Presentation in tutorial
Week 6 05-10-2026	Foreign exchange rate determination and forecasting. Chapter 9: Problems: 1, 2, 3, 4 and 5.	Presentations: Chapter 7: Problems: 1, 2, 3, 4 and 9.	- Presentation in tutorial
Week 7 12-10-2026	Transaction exposure. Chapter 10: Problems: 1, 2, 3, 4, 8 and 10.	Presentations: Chapter 9: Problems: 1, 2, 3, 4 and 5.	- Presentation in tutorial - Mid-semester examination
Week 8 19-10-2026	Global cost of capital. Chapter 13: Problems: 1, 2, 3, 4, 5, 11.	Presentations: Chapter 10: Problems: 1, 2, 3, 4, 8 and 10.	- Presentation in tutorial
Week 9 26-10-2026	Sourcing capital globally. Chapter 14: Problems 1, 2, 3, 4.	Presentations: Chapter 13: Problems: 1, 2, 3, 4, 5, 11.	- Presentation in tutorial
Week 10 02-11-2026	International Trade Finance. Chapter 16: Problems: 1,2,5,7, and 12.	Presentations: Chapters 14: Problems 1, 2, 3, 4.	- Presentation in tutorial
Week 11 09-11-2026	Foreign direct investment Chapter 17: Questions: 1-2 4-5, 8-9,17, and 23.	Presentations: Chapter 16: Problems: 1, 2, 5, 7, and 12.	- Presentation in tutorial
Week 12 16-11-2026	Summary of Subject	Presentations: Chapter 17: Questions: 1-2, 4-5, 8, 9, 17 and 23.	- Presentation in tutorial

Teaching Weeks	Topic	Preparation	Assessment Due
Week 13 23-11-2026	FORMAL EXAM PERIOD (The final exam can be scheduled in this or the next week)		- Final examination

The above timetable should be used as a guide only, as it is subject to change. Students will be advised of any changes as they become known on the Subject's Ultra site.

3 Assessment Information

3.1 Subject Learning Outcomes

	Outcome
	The School of Business is an AACSB (Association to Advance Collegiate Schools of Business) accredited School. Accreditation results from an extensive self-review and an international peer evaluation against rigorous criteria and standards of quality academic and professional excellence. The process is one of continuous improvement and includes ongoing assessment of whether learning activities and resources are well aligned to program goals and learning outcomes. Assurance of learning (AoL) forms part of the accreditation standards for AACSB. Information regarding the subjects that are involved in the AoL process for your program can be found on the following webpage https://www.westernsydney.edu.au/schools/sobus/assurance_of_learning
1	Explain the key financial products operating in the international and domestic financial markets
2	Analyse the theoretical relationships between spot and forward rates, interest rates and inflation and industry best practice for managing currency and interest rate risk, with a view towards integrating risk management
3	Classify international investment decisions at the portfolio and project level and examine the different ways of financing or investing, in foreign or domestic operations, the use of debt or equity for funding, and the use of derivative products for risk management
4	Identify political or country risk issues and the implications arising from the interaction of investment and financing decisions and analyse macroeconomic issues regarding foreign direct investment, international portfolio theory and country risk
5	Describe the functionality of an Australian multinational corporation and assess how it can take advantage of lower capital costs by being in the international capital market

3.2 Assessment Summary

The assessment items in this subject are designed to enable you to demonstrate that you have achieved the subject learning outcomes. Completion and submission of all assessment items which have been designated as mandatory or compulsory is essential to receive a passing grade.

To pass this subject you must:

- Complete all assessment items.
- Achieve an overall mark of at least 50 per cent.

Item	Weight	Due Date	SLOs Assessed	Mandatory	Threshold
Presentation in tutorial	10%	Submit on Ultra site (a soft copy of presentation): 11:59 PM (VN time) every Sunday of each session, from Session 2-12 ; In-class presentation: During normal class time from Session 2-12	2, 3, 4	Yes	No
Mid-semester examination	30%	After session 7 (exact date to be announced later)	2, 3	Yes	No
Final examination	60%	Formal Examination Period	1, 2, 3, 4, 5	Yes	No

Feedback on Assessment

Feedback is an important part of the learning process that can improve your progress towards achieving the learning outcomes. Feedback is any written or spoken response made in relation to academic work such as an assessment task, a performance or product. It can be given to you by a teacher, an external assessor or student peer, and may be given individually or to a group of students. As a Western Sydney University student, it is your responsibility to seek out and act on feedback that is provided to you as a resource to further your learning.

The Assessment Policy provides that assessment feedback is available to students in a timely way. Your lecturer/tutor will normally provide you with your mark and written feedback within two to three weeks of the submission date, given that your assessment is submitted on the due date.

Note: Before you receive your results for each piece of assessment they may be moderated. Moderation is a process whereby the subject coordinator regulates the marking of individual markers to achieve consistency in the application of subject objectives, performance standards and marking criteria. You should note that, consistent with the Criteria and Standards Based Assessment policy, the final marks for the cohort may be also adjusted if marks are very high or low or there are inconsistencies between teams. Marks for an individual piece of assessment will not be changed after you have your moderated results.

Note: It is required that students attempt all available assessment elements. An automatic Fail Non - Submission grade will be awarded if any assessment task is not submitted/completed as per the details specified.

Academic Integrity and Student Misconduct Rule

Western cares about your success as a student and in your future career. Studying with academic integrity safeguards your professional reputation and your degree. All Western students must:

- be familiar with the policies listed below;
- apply principles of academic integrity;
- act honestly and ethically in producing all academic work and assessment tasks; and
- submit work that is their own and acknowledge any sources used in their work.

Each time you submit an assessment, you will declare that you have completed it individually, unless it is a group assignment. In the case of a group assignment, each group member should be ready to document their individual contribution if needed.

The [Student Misconduct Rule](#) applies to all students of Western Sydney University including Western Sydney University programs taught by other education providers. You must not engage in academic, research or general misconduct as defined in the Rule or you may be subject to sanctions. The University considers submitting falsified documentation in support of requests to redo, resit or extend submissions, including sitting of deferred examinations, as instances of general misconduct.

More information is available in the [Academic Integrity Guidelines](#). It is your responsibility to apply these principles

to all work you submit to the University.

Special Consideration and Requests for Extensions

Western recognises that there may be times when things outside of your control impact your ability to complete your studies.

You can submit a Special Consideration or extension application to request that you are:

- granted an extension,
- excused from a compulsory teaching activity,
- being offered an opportunity to complete a different, academically equivalent assessment task or
- granted another appropriate adjustment.

Before submitting your application, you should:

- gather any supporting documentation that demonstrates how you have been impacted by circumstances outside of your control; and
- refer to the [Supporting Documentation](#) website for guidance on acceptable evidence.

If you do not have documentation at the time of submitting your application, you should still apply. You may be asked to provide supporting documents at a later stage.

Need help?

If you are having difficulties with understanding or completing an assessment task, contact your Subject Coordinator as soon as possible. Western also has a range of academic support services, including:

- **Library Study Smart:** book a one-to-one [Zoom consultation](#) with a literacy expert. You can discuss how to develop your assignment writing and study skills or seek assistance to [understand referencing and citation requirements](#). Check the Library Study Smart website for how-to [study guides and tools](#).
- **Studiosity:** Upload your assignment draft to Studiosity within Ultra to receive writing feedback within 24 hours.
- **Online workshops, programs and resources:** From maths and stats help to academic literacy and peer support programs, the University has a range of resources to assist.

Please also remember that there is a range of [wellbeing support available](#) - from counselling and disability services to welfare.

Assessment Details

3.2.1 Presentation in tutorial

Weight:	10%
Type of Collaboration:	Individual
Due:	Submit on Ultra site (a soft copy of presentation): 11:59 PM (VN time) every Sunday of each session, from Session 2-12 ; In-class presentation: During normal class time from Session 2-12
Submission:	Oral presentation in Class. Students must provide their tutor with a hardcopy of their presentations at the end of their presentations.
Format:	Oral presentation in class.
Length:	10 minutes
Use of Artificial Intelligence:	Advice on acknowledging the use of generative AI. It is expected that you will use and critically evaluate the output from generative artificial intelligence (AI) tools in this assessment task. Any use of content from generative AI tools must be acknowledged.

Instructions:

Every student must make a presentation in their tutorial class. Each student's presentation consists of a maximum 10 minutes' oral presentation using power points/tables/graphics etc. to illustrate their answers. In the first session, the lecturer assigns recommended end-of-chapter problems to the students for presentations. The mark for your presentations reflects both the quality of content and the quality of your actual presentation. Students must provide their tutor with a hardcopy of their presentations at the end of their presentations. The tutor will return the presentations along with a mark out of 10 in the week following their presentations.

Marking Criteria:

Criteria	High Distinction	Distinction	Credit	Pass	Unsatisfactory
Fail 0-49% Pass 50-64% Credit 65-74% Distinction 75-84% High Distinction 85-100%	Interprets the question accurately and builds arguments creatively and in a highly-disciplined manner. Displays originality in applying relevant derivatives theory in a lucid manner to address a business need or explain a behavior in the market. Expresses conclusions succinctly based on critical analysis of evidence. Contains excellent theoretical and/or empirical insights. Demonstrates high degree of precision in using language to present key ideas and conclusions.	Undertakes comprehensive analysis of a business need or a behavior in the market. Demonstrates excellent understanding of all relevant concepts and theories. Displays strong judgement and rationale in relating theory to a given situation. Presents the ideas in a logical and well-integrated manner to arrive at credible conclusions.	Demonstrates sound understanding of relevant theory and practice. Interprets a given situation correctly and develops key arguments in a structured fashion. Includes arguments and conclusions which are complete and are well founded in economic theory. Presents clear and effective response.	Demonstrates sound understanding of relevant theory and practice. Interprets a given situation correctly and develops key arguments in a structured fashion. Includes arguments and conclusions which are complete and are well founded in economic theory. Presents clear and effective response.	Displays only limited understanding of relevant theory and practice. Uses flawed arguments not well founded in economic theory. Presents a substantially incomplete response. Presents the response in a poorly structured fashion.

3.2.2 Mid-semester examination

Weight:	30%
Type of Collaboration:	Individual
Due:	After session 7 (exact date to be announced later)
Submission:	Multiple Choice Answers to be completed and submitted at the end of the Test.
Format:	This test is closed book and comprises of 30 multiple choice questions to be completed in 90 minutes. The questions covers the knowledge from session 1 to session 7 and will vary in difficulty to assess different levels of performance from a basic understanding of the material presented to a mastery of the application of the concepts to new and different problems. There will be no supplementary mid-semester examination. Students who miss the mid-semester examination because of valid medical or other personal reasons will need to apply officially for special consideration by submitting a request with supporting documentation. A student whose request for special consideration is approved will have the weighting of his/her final exam increased on a pro rata basis to account for the missed mid-semester examination.
Length:	90 minutes
Use of Artificial Intelligence:	Not permitted

Instructions:

Attempt ALL QUESTIONS in the Multiple-Choice Exam. There is no Negative Marking.

Marking Criteria:

Criteria	High Distinction	Distinction	Credit	Pass	Unsatisfactory
Fail 0-49% Pass 50-64% Credit 65-74% Distinction 75-84% High Distinction 85-100%	Interprets the question accurately and builds arguments creatively and in a highly-disciplined manner. Displays originality in applying relevant derivatives theory in a lucid manner to address a business need or explain a behavior in the market. Expresses conclusions succinctly based on critical analysis of evidence. Contains excellent theoretical and/or empirical insights. Demonstrates high degree of precision in using language to present key ideas and conclusions.	Undertakes comprehensive analysis of a business need or a behavior in the market. Demonstrates excellent understanding of all relevant concepts and theories. Displays strong judgement and rationale in relating theory to a given situation. Presents the ideas in a logical and well-integrated manner to arrive at credible conclusions.	Demonstrates sound understanding of relevant theory and practice. Interprets a given situation correctly and develops key arguments in a structured fashion. Includes arguments and conclusions which are complete and are well founded in economic theory. Presents clear and effective response.	Demonstrates sound understanding of relevant theory and practice. Interprets a given situation correctly and develops key arguments in a structured fashion. Includes arguments and conclusions which are complete and are well founded in economic theory. Presents clear and effective response.	Displays only limited understanding of relevant theory and practice. Uses flawed arguments not well founded in economic theory. Presents a substantially incomplete response. Presents the response in a poorly structured fashion.

3.2.3 Final examination

Weight:	60%
Type of Collaboration:	Individual
Due:	Formal Examination Period
Submission:	Held during Formal Examination period.
Format:	This is a two-hour closed book exam and combines multiple choice questions and short-answer questions
Length:	2 hours
Use of Artificial Intelligence:	Not permitted

Instructions:

The questions cover the whole semester. The multiple-choice questions are much the same format as the mid-term. The short-answer questions test problem-solving skills. You are assessed on applying economic logic to practical problems. Your analytical reasoning skills and ability to see the difficulties in a policy environment are examined. Written communication skills are evaluated. It also tests higher-order thinking skills such as analysis, synthesis, and evaluation.

Marking Criteria:

Criteria	High Distinction	Distinction	Credit	Pass	Unsatisfactory
Fail 0-49% Pass 50-64% Credit 65-74% Distinction 75-84% High Distinction 85-100%	Interprets the question accurately and builds arguments creatively and in a highly-disciplined manner. Displays originality in applying relevant derivatives theory in a lucid manner to address a business need or explain a behavior in the market. Expresses conclusions succinctly based on critical analysis of evidence. Contains excellent theoretical and/or empirical insights. Demonstrates high degree of precision in using language to present key ideas and conclusions.	Undertakes comprehensive analysis of a business need or a behavior in the market. Demonstrates excellent understanding of all relevant concepts and theories. Displays strong judgement and rationale in relating theory to a given situation. Presents the ideas in a logical and well-integrated manner to arrive at credible conclusions.	Demonstrates sound understanding of relevant theory and practice. Interprets a given situation correctly and develops key arguments in a structured fashion. Includes arguments and conclusions which are complete and are well founded in economic theory. Presents clear and effective response.	Demonstrates sound understanding of relevant theory and practice. Interprets a given situation correctly and develops key arguments in a structured fashion. Includes arguments and conclusions which are complete and are well founded in economic theory. Presents clear and effective response.	Displays only limited understanding of relevant theory and practice. Uses flawed arguments not well founded in economic theory. Presents a substantially incomplete response. Presents the response in a poorly structured fashion.

4 Readings and Resources

You can find all required readings in the Reading List section of this subject's site on the Learning Management System.

5 Key Teaching and Learning Policies

The University has several policies that relate to teaching and learning. Links to important policies affecting students are below. It is your responsibility to ensure you familiarise yourself with these policies so that you are aware of your rights and responsibilities.

- [Assessment Policy](#)
- [Assessment Procedures - Review of Grade](#)
- [Bullying Prevention Policy](#)
- [Special Consideration Policy](#)
- [Student Administration Policy](#)
- [Examinations Policy](#)
- [Learning and Teaching Policy](#)
- [Progression Procedure](#)
- [Student Code of Conduct](#)
- [Student Misconduct Rule](#)
